Who We Are

At San Marcos Adult School, we serve the residents of San Marcos and its surrounding communities. Our Adult Education program provides the essential learning and testing that is required to assist our adult community in reaching the necessary level of education.

Our mission is to provide adult learners educational opportunities and services, as well as the skills to pursue their goals and become active participants in the community. At San Marcos Adult School, we respect students, believe in their abilities and instruct them to think critically and communicate effectively. We believe that learning is a lifelong process, and it is never too late to receive your high school diploma or learn a new career path.

Partnering with Our Community

Our partners work with us to effectively support our students. Together with members of the Education to Career Network, we collaborate with industry leaders, corporations, nonprofit organizations, government agencies and individuals that share our vision and passion to strengthen the community and help our students achieve success.

What We Offer

San Marcos Adult School offers both an in-class and independent study High School Diploma program and GED preparation. For in-class study, the program is conducted at the Twin Oaks High School campus on Tuesday, Wednesday and Thursday evenings. For independent study, students complete their coursework off campus and meet with their instructor on Tuesdays or Thursdays to turn in work, ask questions, take tests and pick up new assignments.

Student Support Services

To help enhance the experience at San Marcos Adult School, we offer academic advising that help our students get on the path to success. Our staff is available to support students who are looking to meet their educational goals due to both academic and non-academic reasons.
